

BRIO-OX 47

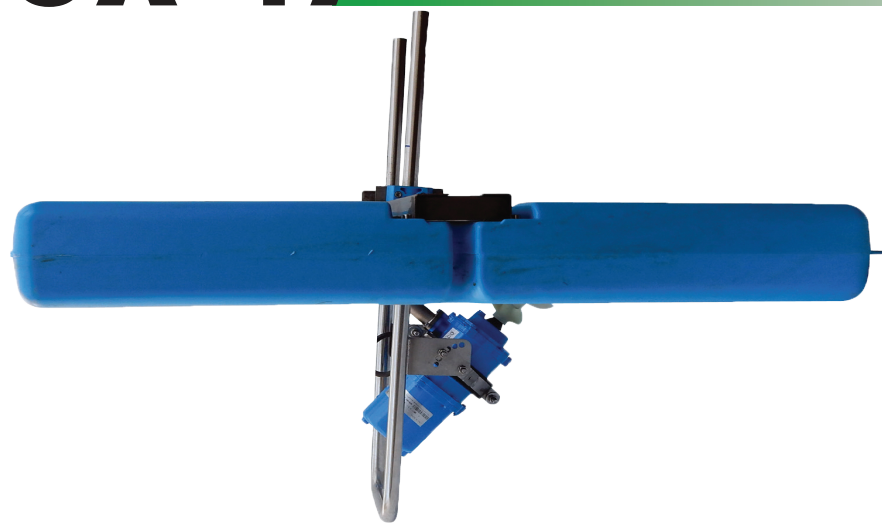

ACQUACOREMEDY - USA

BRIO-OX 47 is a surface aerator designed for great circulation, degassing and aeration effect. The powerful motors with which the aerator is supplied are the big brothers of the BRIO-OX range. This innovative system is the ideal solution for the oxygenation and degassing of huge volumes of water at the best efficiency rates and lowest energy consumption. Quick destratification of water basins, tanks and ponds is implemented thanks to the massive action of this cost-effective machine, which helps prompt recovery of the environmental balance

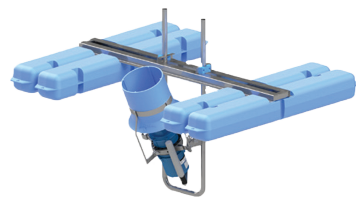

FEATURES

- Sturdy and durable
- Suitable for use in freshwater as well as in salt water
- Floating and dock mount support versions available
- Conveyor available to direct the flow in order to obtain a longer direct effect
- Lightweight, easy to handle and to move from tank to tank or from pond to pond

SUPPORTS

FLOATING INSTALLATION

Light-weight and easy to install, for standard aquaculture applications

DOCK MOUNTING INSTALLATION

Useful for lake de-icing, weeds/algae removal and destratification
